## Reports, Query & Mobile Query

### Calendar Reports

When selecting "All Hearings" in Calendar Events, the report will now exclude 341 Meetings. To view 341 Meetings, you must select the "341 Meeting" option when generating a calendar report.

The screenshot shows the 'Calendar Events' search interface. It includes a 'Case number' text box, a 'Judge' dropdown menu with 'Unassigned hearing judge' selected, and radio buttons for 'Hearing judge', 'Case judge', and 'Hearing or case judge'. The 'Office' dropdown shows 'Gainesville (1)' and 'Pensacola (3)'. The 'Type' dropdown is set to 'All Hearings', with '341 Meeting' and 'Confirmation Hearing' also visible. A date range is set from '4/15/2013' to an empty date box. Radio buttons for 'AM only', 'PM only', and 'Both' are present, with 'Both' selected.

### Docket Activity Report

Viewers will be able to generate this report with both date and time increments (vs. the current date-to-date only).

The screenshot shows the 'Docket Activity Report' search interface. It includes a 'Case number' text box with a checked checkbox for 'Only cases to which I am linked'. The 'Office' dropdown shows 'Gainesville' and 'Panama City'. The 'Case type' dropdown shows 'ap' and 'bk'. The 'Category' dropdown shows '341info', 'answer', and 'appeal'. There are checkboxes for 'Open cases' and 'Closed cases', and radio buttons for 'Summary Text' (selected) and 'Full Docket Text'. The date range is set from '4/14/2013' to '4/15/2013', with time increment dropdowns circled in red. The 'Sort by' dropdown is set to 'Case Number'. 'Run Report' and 'Clear' buttons are at the bottom.

## Reports, Query & Mobile Query

### Query

PACER customers requested additional search functionality be added to the Bankruptcy Query screen. The Release 5 query screen presents options for Filed Date range and Last Entry Date range which can be very helpful when looking for recent updates or filings. The adversary and miscellaneous proceeding Nature of Suit codes have also been added, as well as a link to the new Mobile Query.

**Query**

**Warning: you will be billed for the total number of pages (this report is not subject to the 30-page limit on PACER charges).**

**Search Clues** [Mobile Query](#)

Case Number	<input type="text" value="4:13-bk-40089"/>		
Last / Business Name	<input type="text"/>	(Examples: Desoto, Des*t)

Filed Date	<input type="text" value=""/> <input type="text" value=""/>	to	<input type="text" value=""/> <input type="text" value=""/>
Last Entry Date	<input type="text" value=""/> <input type="text" value=""/>	to	<input type="text" value=""/> <input type="text" value=""/>
Nature of Suit (AP and MP cases only)	<input type="text" value="01 (Determination of removed claim or cause)"/> <input type="text" value="02 (Other (e.g. other actions that would have been brought in state court if unrelated to bankruptcy))"/> <input type="text" value="11 (Recovery of money/property - 542 turnover of property)"/> <input type="text" value="12 (Recovery of money/property - 547 preference)"/>		

Be advised that selection of a Nature of Suit code as your only search criteria could produce many records and result in a large PACER billing charge. You will be required to consent to this possibility prior to completing the search.

Please note the warning message displayed at the top of the screens when generating reports as many reports are *not* subject to the 30-page limit and may result in large PACER billing charges.

## Reports, Query & Mobile Query

### Mobile Query

Release 5 introduces a new mobile query feature that streamlines the basic CM/ECF search when using portable devices. This interface is reformatted for easier viewing on smaller screens. Mobile Query is compatible with smart phones such as the iPhone, Android, BlackBerrys, and other PDAs that can access web applications, and is designed to work on any browser that can support basic HTML. Standard PACER charges will apply.

Mobile Query can search by case number, party name, or keyword(s) in docket text within a case. When searching spaces can be used instead of other punctuation such as a dash or comma. You must enter at least two letters of the last name when searching by name. You can access Mobile Query within CM/ECF whether on a computer or mobile device.

The image displays three screenshots of the CM/ECF Mobile interface. The leftmost screenshot shows the search page with a search box and instructions: "Search for a case by entering either a case number or the name of a party or attorney in the search box above. Spaces can be used in case numbers instead of dashes or other punctuation. When searching by name, you must enter at least two letters of the last name. If you enter only one letter the search will only find people whose last names are exactly that letter." Callouts include "Prev Page", "Logout", "FLNB Website", and "Return to CM/ECF". The middle screenshot shows search results for case 13-40089-KKS, filed 04/15/2013, for Joe Schmo, Jr. It lists categories: Attorneys, Parties, Deadlines / Hearings, and Docket Entries (2). A callout "No. Dkt. Entries" points to the Docket Entries count. The rightmost screenshot shows the same results with a "Keyword Search" callout pointing to a search box containing the word "petition".

When viewing the docket in larger cases it may be helpful to search by keyword(s) if you are searching for a particular pleading. You may do this by clicking the magnifying glass icon and typing the word(s) you seek.

The U.S. Bankruptcy Court for the Northern District of Florida will upgrade to CM/ECF Release 5.1, incorporating the changes from Release 5.0, the weekend of April 26-28, 2013. During that time, the system will be unavailable. We will notify you via email as soon as the system becomes available. Procedures for emergency filings will be posted to our website at [www.flnb.uscourts.gov](http://www.flnb.uscourts.gov).
